

HUM 101 FALL 2024 WRITING ASSIGNMENT 1

Total Marks for Writing Assignment 1 is 10%

Word Limit 700 to 1000

Only submit the soft copy on Turnitin under the submission portal Writing Assignment 1. No need to submit any hard copy

Due date is on 12th of November (Before 04:00 am)

Do not plagiarize. Provide proper in text citation and then even if the plagiarism rate increases, I will overrule it due to presence of proper in text citation.

Provide in text citation and bibliography/ works cited page

Please do not take any help from paraphrasing tools, Grammarly, and refrain from using any AI application to generate text. If you are found to do so your marks will heavily decrease and you might end up getting a zero

How to analyze: <https://academicguides.waldenu.edu/writingcenter/evidence/analysis>

APA 7th Format (both in text citations and works cited page):

https://libguides.csudh.edu/ld.php?content_id=52097964 ,

<https://guides.himmelfarb.gwu.edu/APA/av-youtube-video> (How to cite you tube videos)

Question: **Provide an analysis** to what extent myths help to maintain Asabiyya in ancient agrarian societies? Use two examples of the three civilizations covered in class, and demonstrate, using their flood myths, how religious ideologies are used to justify spiritual and political authority. It is mandatory to use the resources (books, videos and your own notes) we have covered in class.

Instructions: Use those resources with proper in text citation according to APA 7th Edition format. If you want to use secondary sources you are only allowed to use scholarly/academic secondary sources. This means you cannot use information or cite from any web sites. Only journal articles, books and you tube videos published under a reputed academic channel can be used. However, please be mindful that you must properly cite and use resources which we have covered in class. Create a works cited page at the end of your answer on a separate page. Upload pdf files on Turnitin. While submitting the file name should be organized as follows: **Student ID_Name**
